Falls on Red Hot Wheel.
St. Paul, Oct. 24.—Emil Zophelitto, sixteen years of age, was probably saved from being burned to death at the Griffin Wheel works here. While tussling with another lad he fell into one of the pits on top of a red hot wheel. His flesh was sizzling on the hot iron when several men jumped to the pit and dragged the boy out. His chest, hands and arms and his face and head are seriously burned. It is said that the boy may recover, but that he will be horribly disfigured.

a complete food, prepared ready for use—an ideal restorative for the convalescent from any sickness, as it has in it a source of unadulterated stored energies, which give strength.

Those who have eaten Dr. Price's Food never tire of it, as it is not only of good flavor, but possesses the advantage of being easily digested. For a breakfast food it is accurately fitted, by its composition, to give satisfaction to all.

CRISIS SAFELY PASSED

Financial Situation in New York City Improved.

CONFIDENCE IS RESTORED

Organization of the Presidents of New York Trust Companies Formed for Mutual Protection—Secretary Cortelyou Renders Assistance.

New York, Oct. 24.—The crisis in New York financial circles was safely passed Wednesday night. After prolonged conferences at J. P. Morgan's office an organization of the presidents of the New York trust companies was effected, not different in principle from the Clearing House association. It was in the nature of a protective combination. All of the leading and admittedly conservative trust companies participated. John A. Stewart, chairman of the board of the United States Trust companies, presided and was elected chairman of a committee whose duties are analogous to those of the clearing house committee. A resolution was unanimously adopted providing for an examination of the various trust companies and a report of their findings and recommendations to the association.

Following this organization, which was regarded as one of the most important adjustments ever successfully carried through in New York financial circles, a report was made to the committee respecting the investigation into the affairs of the Trust Company of America.

This report was carefully considered in a prolonged conference of the committee and it was apparent that the trust company had ample securities to warrant continued advances. As a result, the committee representing all of the trust companies of New York unanimously agreed to come to the aid of the Trust Company of America by providing such funds as it needs. There is no reason to doubt, therefore, that the Trust Company of America will be able to meet all demands made upon it.

At the same time and more important the secretary of the treasury having satisfied himself as to the condition of the New York banks, authorized an announcement that he had directed that government deposits be placed in the banks of this city to the extent of \$25,000,000 today.

These two measures are admittedly adequate for all the needs of the banking and trust corporations of New York in the present emergency.

SHARP TURN OF SENTIMENT

Confidence in New York Banking Institutions Renewed.

New York, Oct. 24.—There was a sharp turn of sentiment in financial quarters late Wednesday, renewed confidence in local banking institutions taking the place of the panicky feeling that has threatened solvent houses and demoralized the Stock Exchange for the past few days. Last night those financiers whose deliberate opinions are most highly esteemed by the public expressed the conviction that the worst was over and that out of the present chaos a condition more stable than has for some time existed was rapidly shaping itself.

Many of the banking men who had labored almost day and night recently that the integrity of New York's financial institutions might be maintained went home early last night satisfied that suspected houses which had been found worthy of support had been fortified against incipient runs or other contingencies. Serious minded men who have met the storm in sober mood left their offices smiling and chatting and with a general bearing that spoke volumes to those who are accustomed

to read the news of the street in the faces of its big men.

Several factors contributed to this change of feeling. First and foremost was the determination reached by men of great influence in the financial world and whose probity is unquestioned to restore confidence, insure safety and prevent panic. Conspicuous among these were J. Pierpont Morgan and James Stillman, president of the National City bank. Throughout the day there were conferences at the office of J. P. Morgan & Co., and while guarded statements only of what was done at these gatherings were given out during business hours, the fact that such men were conferring, linked with their known personal standing and financial resources, did much to allay fear for the future. News of these conferences quickly ran through the financial districts, allayed the fears of the extremely nervous and certainly aided the stock market where this interference brought a recovery of prices toward the close of a day during which low levels had been reached.

Lent a Moral Influence.

Next in point of influence was the presence at the sub-treasury of Secretary of the Treasury Cortelyou, who not only lent the moral influence of a representative of the government, but during the course of the day caused to be deposited with New York banks large sums, said to aggregate \$10,000,000. Mr. Cortelyou received many callers and all who conferred with him subsequently appeared to have been reassured.

Another potent factor in bringing about a better feeling and the undoubted return of saner sentiment and improved confidence was the ability of the Trust Company of America to withstand an all day run, as it successfully did. In the face of enormous withdrawals, the officials of the bank proclaimed their readiness to settle with all depositors on demand. Even for a few minutes after the regular hour of closing the company continued to pay out money at its main office in Wall street and the Broadway branch and certify all checks presented. Then it was announced that the institution would be open as usual today prepared for eventualities. So marked was the strength of the bank that many who withdrew deposits early in the day again deposited them before the doors were closed. The total resources of the company at last reports were in excess of \$70,000,000. Several millions were withdrawn, but funds to satisfy every claim were said to be at hand.

The Only Run of Importance.

This was the only run of importance Wednesday and this fact was an encouraging feature. The depositors in the Dollar Savings bank in the Bronx, of which John J. Hafen is the head, became uneasy over the general situation and many clamored for their money under the impression that their deposits were in jeopardy. These depositors were chiefly foreigners who had confused the run of Tuesday on the Knickerbocker Trust company's Bronx branch with their own institution. Officials of the latter institution explained matters and the run, for which there was absolutely no excuse, ended at once. This flurry over things looked better, as the uninformed element among the depositors was regarded as hard to control in times of general excitement.

The clearing house report also was favorable. Apparently the national banks have passed the crisis and those which have required assistance gave evidence of being able to take care of themselves. James G. Cannon, vice president of the Fourth National bank and a member of the clearing house committee appointed to examine the national banks that have been under criticism, announced that the condition of the banks shown at the clearing houses was first-class. Although a few of them have to be assisted, he said the conditions were fast becoming normal.

The failure of the Knickerbocker Trust company, which suspended Tuesday, did not exercise such an adverse influence on the money situation as might have been expected and the early action of Acting Superintendent of Banks Skinner in taking possession of the institution on the advice of the attorney general gave rise to a feeling of relief, as it was felt that the state officials would make the most out of the situation. It is said to be a question whether the institution will ever reopen, at least under the present management.

NO NEED FOR ALARM.

Comptroller Ridgely Declares the Situation Is Sound.

Washington, Oct. 24.—Comptroller of the Currency Ridgely late yesterday gave out a statement saying that the general feeling indicates an absolutely sound situation, that there was not the slightest need of apprehension about the banks and trust companies of the country, that the banks of the reserve cities have every disposition to leave their balances in New York and other central reserve cities and attributes the trouble in New York to the condition of a very few concerns discredited by the operations of their officers and to the different prices of stocks and securities as between New York city and the country banks.

GERMANS WIN RACE

Foreigners Capture Prize in Aeronautic Contest.

RACING RECORDS BROKEN

Winning Balloon Traveled a Distance of About Eight Hundred and Eighty Miles—French Competitor a Very Close Second.

St. Louis, Oct. 24.—Proclaimed as the most remarkable ballooning contest in the history of world aeronautics, with every racing record broken, the second international cup competition, which started from here on Monday last, ended Wednesday with Germany accorded the winning laurels. The finish of the race was the closest and most exciting the followers of the sport have ever known, the victorious German balloon, the Pommern, which landed at Asbury Park, N. J., Wednesday morning, having but slightly more than five miles the advantage of the French contestant, L'Isle de France, second in the race, which descended Wednesday afternoon at Herbertsville, N. J., a few miles from the Atlantic coast and slightly northeast of Point Pleasant. Another German balloon, the Dusseldorf, stands third in the race. American entries are fourth and fifth, a third German team is sixth, a French team seventh, American eighth and English ninth.

The unofficial estimated airline flight of the Pommern is 880 miles and that of the L'Isle de France is 875. The Dusseldorf, third, landed near Dover, Del., and is estimated to have covered 790 miles. The official measurements will be computed at the geological survey of the United States government at Washington. Only the proximity of the Atlantic ocean stopped the wonderful flight of the Pommern. The balloon could have remained in the air many hours longer and undoubtedly would have added several hundred miles to her record but for the expanse of water ahead.

Landing of the Pommern.

News of the landing of the Pommern was received here at an early hour and was followed by reports of the descent of every other contestant in the race with the exception of the L'Isle de France. The race was at once conceded to be between these two and when a report was received at noon to the effect that the French craft had been sighted in the vicinity of Asbury Park intense excitement prevailed. There were many predictions that the contest would result in a tie for first honors. When the L'Isle de France did not descend at the point selected by the German leaders in the race there was a belief that the French aeronauts might after all be declared the winners. Evidently a contrary current caught the L'Isle de France, however, and blew the vessel back to the southwest. Realizing that their supply of gas was low and that they were losing actual ground, the occupants of the French basket decided to make a rapid descent as near the coast as possible.

It was the drifting back from Asbury Park to Herbertsville that placed them in second position.

While losing the distance record and possession of the cup, the French team sailing the L'Isle de France gained the honor of the world's record for duration of flight. Starting from here Monday at 4:10 p. m. (Central time), they landed at 1:10 p. m. (Eastern time), making their time in the air just 44 hours. The previous record was 41 hours 5 minutes, held by Count de la Vaulx of France. The record of the international race, set by the balloon United States in the flight from Paris last year, was 402 miles. This was more than doubled by the Pommern and the French balloon, which threatened the winner. In fact, but one of the nine contestants in this year's race failed to exceed the 1906 record. The result of the race, the first of its character ever held in this country, has qualified the United States in the opinion of all the ballooning experts gathered here as the most favorable aeronautic ground in the world.

Germany having won possession of the silver trophy presented by James Gordon Bennett, the race next year will be in the home of the German Aero club. Aside from the possession of the cup, the Germans won a cash prize of \$2,500 also offered by Mr. Bennett.

The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms of biliousness, torpid liver, indigestion, or dyspepsia, are Dr. Pierce's Golden Medical Discovery and Dr. Pierce's Kidney and Bladder Cure. Both of these medicines are sold by all the several schools of medical practice, and are the only medicines that have been so widely and so long used with such success.

Discoveries. That this is absolutely true is readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a free copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

Henry E. Jones, of Tampa, Fla., writes: "I can thank God for my present health, due to Foley's Kidney Cure. I tried doctors and all kinds of kidney cures, but nothing done me much good till I took Foley's Kidney Cure. Four bottles cured me, and I have no more pain in my back and shoulders. I am 62 years old and suffered long, but thanks to Foley's Kidney Cure I am well and can walk and enjoy myself. It is a pleasure to recommend it to those needing a kidney remedy."—H. P. Dunn.

Foley's Kidney Cure will cure any case of kidney trouble that is not beyond medical aid—H. P. Dunn.

TWO RAILROAD MEN DIED TODAY

Alex McCarthy Died in Minneapolis of a Complication of Diseases

WILL BE BURIED IN EVERGREEN

W. G. Greenhalgh Died in Northern Pacific Hospital of Injuries in Wreck

A telegram was received this forenoon by Charles McCarthy, chief clerk of W. H. Gemmell, bringing the sad news of the death of his brother Alexander J. McCarthy. Mr. McCarthy died in Minneapolis at 8:30 this morning. He had gone there for medical treatment and his death occurred at the home of a sister residing in that city. He had been in poor health for some time and his family was with him at the time of his death. His father and all of his brothers except Charles were also present at the bedside. No arrangements have yet been made for the funeral, but Mr. Charles McCarthy stated that the remains will be brought to Brainerd for burial. Mr. McCarthy has been a resident of Brainerd for over thirty years and has many friends who will regret to learn of his death.

W. C. Greenhalgh, an old time Brainerd boy, but for several years a Northern Pacific engineer running out of Staples, died this morning at the Northern Pacific sanitarium. Mr. Greenhalgh was injured in a wreck last June, having his arm and shoulder broken. They failed to heal properly and he has been at the hospital ever since. It is said he never gave up hope of recovery until last Sunday. The remains were shipped to Staples today noon. The funeral arrangements are in charge of the Brotherhood of Firemen and Engine Men and of the K. of P., he having been a member of both orders. It is thought that the funeral will be held Sunday. Interment will be at Staples. He leaves a wife and a boy eight years old.

The wreck in which Mr. Greenhalgh was injured occurred at Mule Dump near Detroit in which a brakeman and the Lidgerwood engineer were killed. He was the engineer on the locomotive, which, with the Lidgerwood unloader and a string of cars went over the dump. The firemen on the locomotive stayed on the engine and was uninjured, while Mr. Greenhalgh jumped and received the injuries which caused his death.

French-McDonald

The marriage of Wales V. French to Mrs. Jane McDonald, both of this city, took place last evening at the Methodist parsonage in the presence of a few friends, the Rev. Charles Fox Davis officiating. The contracting parties are well and favorably known, Mr. French being a machinist at the Northern Pacific shops, and the bride having lived in Brainerd for seven years past. The couple left on the evening train for the twin cities and after their trip will make their residence at 424 South 6th street.

\$100 REWARD, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh, being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

COSTLY FIRE IN CHICAGO.

Five-Story Building and Its Contents Destroyed.

Chicago, Oct. 24.—A five-story building at 226 Lake street was destroyed by fire last night. The loss was estimated at \$200,000, distributed as follows:

Rome Brass and Copper company, \$20,000; Novelty Paper Box works, \$25,000; Chicago Label and Box company, \$75,000. The building, owned by J. H. Fleming of Magregor, Ia., was damaged to the extent of \$65,000.

CLEANS BLOOD OF IMPURITIES

Splendid Prescription to be Used When Blood is Out of Order

MAKES THE KIDNEYS FILTER

Mix it up Yourself and Try it as it Thoroughly Cleanses the Blood

A leading health journal, in answering the question, "What is the best prescription to clean and purify the blood," prints in a recent issue the following: Fluid Extract of Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well and use in teaspoonful doses after each meal and at bedtime.

A well known local druggist who is familiar with this prescription states that it is harmless, being composed of simple ingredients which can be obtained from any good prescription pharmacy.

It cleans the blood of all impurities and nourishes the blood. In just a few days the skin begins to clear of sores, boils and pimples. It puts vigor and energy into run-down, debilitated men and women. For many years Sarsaparilla alone has been considered a good blood medicine. But while it built up and made new blood, the impurities remained within and the good accomplished was only temporary. Sarsaparilla, however, when used in combination with Compound Kargon and Extract of Dandelion works wonders. This combination puts the kidneys to work to filter and sift out the waste matter, uric acid and other impurities that cause disease. It makes new blood and relieves rheumatism and lame back and bladder troubles.

This prescription is better than the usual patent medicines, which are in

the most part alcoholic concoctions. The ingredients cost but little and are easily mixed at home. Every man and woman here should make some up and try it if they feel their system requires a good blood medicine and tonic.

The Kargon to clean the kidneys and vitalize them so they can clean the blood, Sarsaparilla to make new rich blood and Dandelion to tone the stomach, clean the liver and make it active and relieve constipation is the way the prescription acts and so mildly and gently that one does not consider they are taking a medicine.

Another of the Magnificent Prizes to be given in the Great Voting Contest

Artistic Individuality and Originalty, Purity of Tone and Thoroughness of Construction. Conceived in the mind of an artist, worked out in its minutest detail by careful hands, created in ideal environment, loved by the world's most famous musicians, places

THE EVERETT PIANO

in the highest possible rank among the very noted art instruments.

"When gripping griefs the heart would clothe, and doleful dumps the mind oppress, then music, with her silvery sounds, with speedy help doth find redress."—Romeo and Juliet.

THE EVERETT PIANO

An instrument that the musical world has long awaited. It is indeed a musical revelation, a realized dream of a scientific designer whose reputation is international and whose genius has produced the ideal, artistic EVERETT of today. There is in the EVERETT'S tone an underlying richness, a tenderness and a solidity that when awakened by a master's hand, sounds the gamut of human emotions.

On the concert stage the EVERETT reigns supreme, and is the choice of the most eminent pianists and singers. The purity, richness, sympathy, brilliancy and power of its tone have made it the idol of the musical world. Great artists like Reisenauer, Burmeister, Nordica, Hirschman, Campanari, Gallico, Damrosch, Sousa, and others, have showered their coveted favors upon it. These distinguished musicians not only use the EVERETT when appearing in public, but it is the only piano that finds a place in their homes and studios.

An eminent divine once said that "doubtless God could make a better berry than the strawberry, but doubtless God never did." The inference is obvious that the good doctor recognized the infinite powers of the Great Creator to be limitless, but the necessity for improvement did not exist in the doctor's judgment of berries. Had the doctor been called upon to pass judgment upon the merits of the Everett piano, his criticism would probably have been that man never had made a better piano, and doubtless man never could. And this magnificent Everett Grand is but another of the splendid pianos we are giving away without barter and without price, in the Greatest voting contest the world ever saw. The magnitude of this Great Contest is sweeping the country like a whirlwind. Its popularity is spreading from coast to coast: New York and California have now named their favorite contestants. Don't let these magnificent pianos go out of the splendid Northwest—God's country—but you have got to show true western spirit and HUSTLE.

Now is the Time to Harvest Votes

Don't wait until the tail end of the contest and be handicapped by those who got in at the beginning. Start today, while the contest is in its infancy, and work a little time every day and you can have your selection of those seven GRAND PIANOS.

FLURRY IN PITTSBURG

Financial Circles in That City Greatly Agitated.

BIG CONCERNS IN TROUBLE

Receiver Appointed for the Westinghouse Interests—Stock Exchange Was Closed Promptly When Informed of the Situation.

Pittsburg, Oct. 24.—A flurry in local financial circles caused by the embarrassment of four concerns of the Westinghouse interests was quickly ended by the prompt action of the Pittsburg Clearing House association and the Pittsburg Stock Exchange.

The Westinghouse Electric and Manufacturing company, the Westinghouse Machine company and the Security Investment company, a holding company for the Westinghouse interests, now are in the hands of a receiver appointed by Judge Ewing of the United States circuit court. A fourth concern, the Nernst Lamp company, will be turned over to receivers today.

The Pittsburg Stock Exchange, which was closed promptly when informed of the situation by the Pittsburg Clearing House association, will likely remain closed today. This action is taken for the purpose of preventing an unnecessary sacrifice of values by a heavy liquidation of stocks.

Statements issued by Mr. George Westinghouse, prominent bankers, officers of the Stock Exchange and the clearing house committee show conclusively that the financial situation here is sound and there is no danger.

Stringency of Money Market Blamed.

The severe stringency of the money market alone is responsible for the Westinghouse difficulties. The solvency of the embarrassed companies is not questioned. The concerns at present are enjoying the largest amount of business known in their careers. The inability to secure funds to pay off maturing loans caused the embarrassment.

Wednesday night the local situation was said to be in better condition than it has been for some time.

As a precautionary measure, however, Senator Knox of Pennsylvania, in a telephonic conversation from Washington with Secretary of the Treasury Cortelyou at New York, requested that the government deposits in the Pittsburg National banks be increased. Advices were received here that the secretary had arranged to place additional funds in local institutions. The amount, however, is not known.

That the local banks are in good condition was shown when it became public that the Diamond National bank had sent \$100,000 in gold to New York institutions. Several other local banks took similar action.

RECEIVERS APPOINTED.

Trust Company at Pittsburg Goes to the Wall.

Pittsburg, Oct. 24.—In the United States court last night H. S. A. Stewart and William L. Abbott were appointed receivers for the Iron City Trust company.

The papers filed in court represent the company as having assets exceeding \$4,000,000 and liabilities to depositors of \$1,700,000. An attorney for the trust company said: "There seems to be no doubt of the solvency of the company and of its ability to pay depositors in full."

"This action was precipitated by the appointment of a receiver for the various Westinghouse interests and was decided upon by the board of directors and stockholders."

"With the small amount due depositors in comparison with its assets, it is believed that the closing of the institution will have little effect on local financial or commercial conditions."

NEVADA BANK FAILS.

Labor Troubles Said to Be Partly Responsible.

Reno, Nev., Oct. 24.—The State Bank and Trust company, with headquarters at Carson and with branches at Goldfield, Tonopah, Manhattan and Blair, closed its doors Wednesday morning. The state bank examiner is in charge. The difficulty was due to the inability to realize on stocks placed as security for a \$400,000 loan made the Sullivan Trust company last year. T. B. Hickey, president of the bank, is one of the wealthiest men in the state and the bank's assets are thought to exceed the liabilities. No fear is entertained that depositors will lose a cent. Hickey is now in San Francisco.

There is no excitement and the feeling prevails that there will be no failure.

A statement issued by the State Bank and Trust company assigns labor troubles and drain on deposits in the South as reasons for the suspension and declares that depositors will be paid dollar for dollar.

Japanese Steamer Wrecked.

Tokio, Oct. 24.—A dispatch from Moji reports that the Japanese freight steamer Kokwo Maru, from Hongkong to Yokohama, went ashore in a storm off Rishma and is a complete wreck. The crew was rescued in lifeboats. The loss on the ship and cargo is \$700,000.

How to get Rid of Fat

A Remarkable Discovery That Can Reduce Fat Harmlessly at the Rate of a Pound a Day

A Trial Box Sent Free

A quick, harmless reducer of fat, called Renzo has come into popular use which far eclipses any method or treatment heretofore used.

Renzo is perfectly harmless, pleasant to take, and it is chewed like candy. It attacks abnormal tissue with unerring accuracy, and causes a gradual, harmless but effective reduction in weight, and without leaving wrinkles which are nearly always present after taking drugs and other dangerous materials commonly called "anti-fats."

There is nothing "just as good" as Renzo. For sale by all druggists at \$1.00 per full sized box, or by mail prepaid, by The Renzo Co., 3151 Renzo Bldg., Detroit, Mich. The company will gladly send you a trial package free by mail, if you will write them direct to Detroit; no free packages at drug stores. For sale and recommended in Brainerd by H. P. Dunn, Druggist.
